Terms of Reference

Revision September 2025

1. Background to the set-up of the Reference Group

In February 2019, the Budapest Process (BP) participating states reaffirmed their commitment to partnering with the Silk Routes countries and the dialogue itself. “The Istanbul Commitments on the Silk Routes Partnership for Migration” were adopted with its “Call for Action”, a five-year action plan with 41 action points in 6 priority areas.

In December 2019, Senior Officials agreed to focus on the implementation of the “Call for Action” and endorsed an Implementation Plan of the Call for Action, which includes priority topics and activities until the end of 2024.

In January 2020, the implementation of the Call for Action kick-started with a focus on Priority Goal 1 (Prevent and counteract irregular migration, facilitate return and readmission of irregular migrants, and combat criminal networks involved in smuggling of migrants) and Priority Goal 2 (Better organise and improve conditions for legal migration and mobility). This focus remained in 2021 and 2022 coupled with other activities from other priority areas in the Implementation Plan.

In May 2021, the BP Chairmanship set-up a Reference Group (RG) to enhance and support the dialogue’s activities and support the implementation of the Call for Action.

2. Objectives of the Reference Group

As a general objective, the RG offers the chance to deepen engagement for the dialogue by developing a red thread between senior official and thematic meetings as well as on the ground operational cooperation and capacity building.

The Reference Group (RG) contributes to the implementation of the priority areas as agreed by Budapest Process Senior Officials, as decision-making body for the dialogue.

More specifically, the RG meetings are also the setting to build upon and follow-up on the conclusions and recommendations reached in the thematic working group meetings. The outcomes of the Reference Groups’ meetings are presented at the annual Senior Officials Meetings.
